FSC® STANDARD ADDENDUM

FSC List of 'highly hazardous' pesticides

FSC-STD-30-001a EN

10th February 2015

PESTICIDES

Title:	FSC List of 'highly hazardous' pesticides
Document reference code:	FSC-STD-30-001a EN
Approval body:	FSC Board of Directors
Contact for comments:	FSC International Center - Policy and Standards Unit - Charles-de-Gaulle-Str. 5 53113 Bonn, Germany +49-(0)228-36766-0 +49-(0)228-36766-30 pesticides.policy@fsc.org

FSC List of 'highly hazardous' pesticides

FSC-STD-30-001a EN

The Forest Stewardship Council® (FSC) is an independent, not for profit, non-government organization established to support environmentally appropriate, socially beneficial, and economically viable management of the world's forests.

FSC's vision is that the world's forests meet the social, ecological, and economic rights and needs of the present generation without compromising those of future generations.

© 2015 Forest Stewardship Council A.C. All rights reserved.

A Objective

This addendum lists pesticides that meet the indicators and thresholds set out in the document FSC-STD-30-001 V1-0 Indicators and thresholds for the identification of ‘highly hazardous’ pesticides (HHP), and therefore are considered to be ‘highly hazardous’ in the FSC system.

The use of these pesticides is prohibited in FSC certified forests and plantations unless a temporary derogation for their use has previously been approved for that certificate holder by the FSC Pesticides Committee acting on behalf of the FSC Board of Directors.

B Scope

This Standard addendum is mandatory for FSC certificate holders (and applicants for certification) and FSC-accredited certification bodies.
