#### **NOTIFICATION:**

(a) If the Department authorizes access to perform a walk thru examination, the applicant's activities are limited to a non-intrusive walk thru. This type of access provides an opportunity to become familiar with the physical conditions of a potential right of way area on DCNR administered lands. **Unauthorized activities include: brushing, staking, flagging, or conducting surveys, etc.**

(b) In the context of projects subject to the DCNR *Application for Right of Way Review Process*, this form does not authorize or grant permission to conduct civil, environmental, cultural resource ecological surveys, etc. Requests to survey are handled through a different form, called a *Certificate to Survey*. The *Certificate to Survey*, which, if approved, would be issued as a part of the DCNR *Application for Right of Way Review Process*. See the following website for more information:

I acknowledge that the information provided above is true and that I have read the above notification paragraphs (a) and (b):
