NET FEET OF SAND IN ZONE B1

Contour interval = 50 feet

50 Net feet of sand in Zone B1

Limit of Zone B1

M/D Generalized boundary of Mississippian (M) – Devonian (D) outcrop (for detail, see Geologic Map of Pennsylvania, 1960)

o5 Well identification number (see Penn. Geol. Survey Open File Rept. 1, 1970) for wells penetrating the Tully Limestone or deeper

o5 Well identification number (see Penn. Geol. Survey Open File Rept. 1, 1970) for wells ending before penetration of the Tully Limestone

o42 Well showing net feet of sand in Zone B1

2o42 Well showing minimum net feet of sand in Zone B1
